“Spiral out. Keep going.”

Job Application for Frontend Developer

Dear Mr./Ms./Dr. LastName,

This letter is to express my interest in the job posted in BLA for “an experienced, detailed-oriented”, front-end web developer. As you will see, three years of experience as a frontend/fullstack developer, has honed my skills, as well as my interpersonal capacity.

I have been a valuable asset as a fullstack developer for EagleScience and a lead front end developer for WORTH using emerging technology to develop web apps. I consider myself a real team player who understands the importance of teamwork, collaboration, and open communication.

I’ve attached a copy of my resume detailing my experience. Although all of the professional projects I’ve worked in have been internal projects, you can find attached some code samples with my latest work.

Feel free to contact me anytime, I’m easy to talk to! Thank you for your time and consideration.

I believe my values match xxx’s goals and

Sincerely,

Christos Tselepidas
